Banners-stages

Discovery & Planning

We start by understanding your goals, audience, and brand identity. Together, we define the purpose of the banner (e.g., promotion, awareness, event) and discuss key elements like size, format, and messaging.

Design Execution

Based on the brief, our designers bring it to life using high-quality visuals, compelling typography, and your brand's color palette. We ensure the design aligns with your brand guidelines and resonates with your audience.

Review & Feedback

You'll have the opportunity to review the banner and provide feedback. We offer up to 2 revisions to ensure the final design is perfect for your needs.

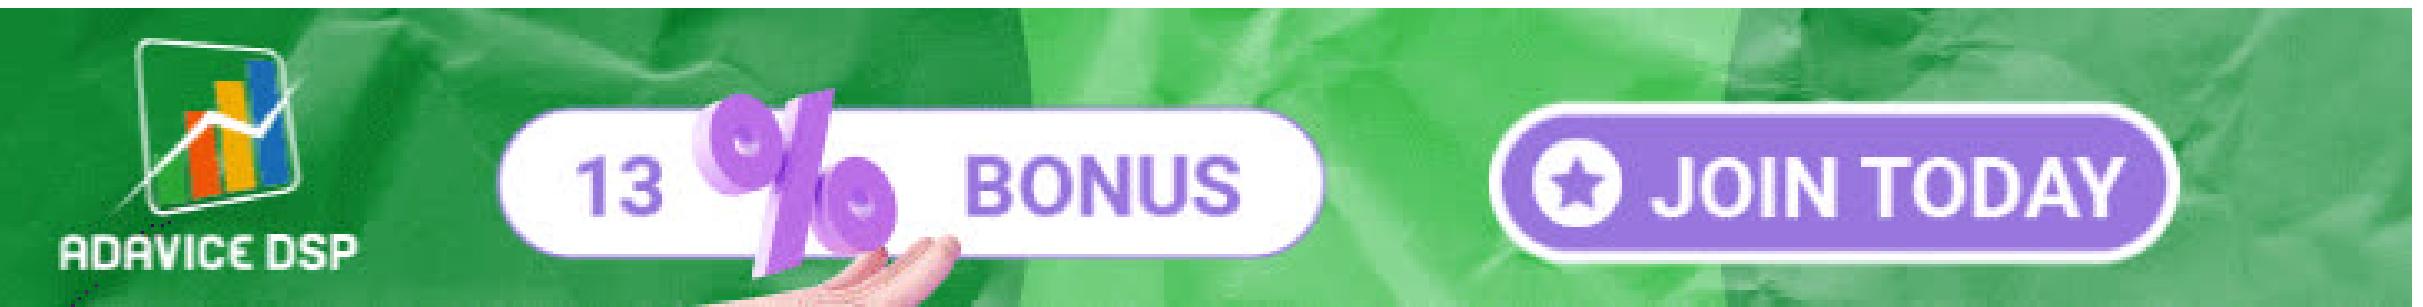

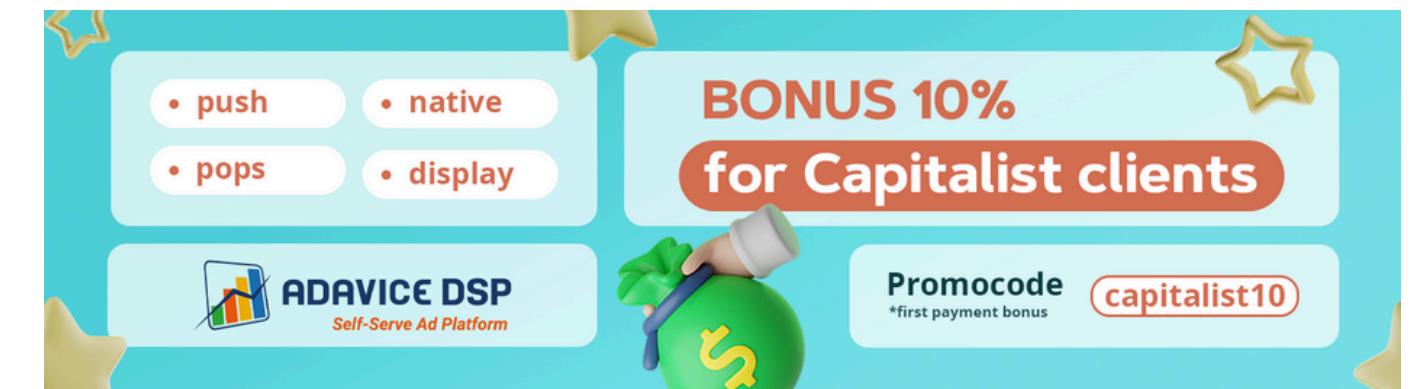

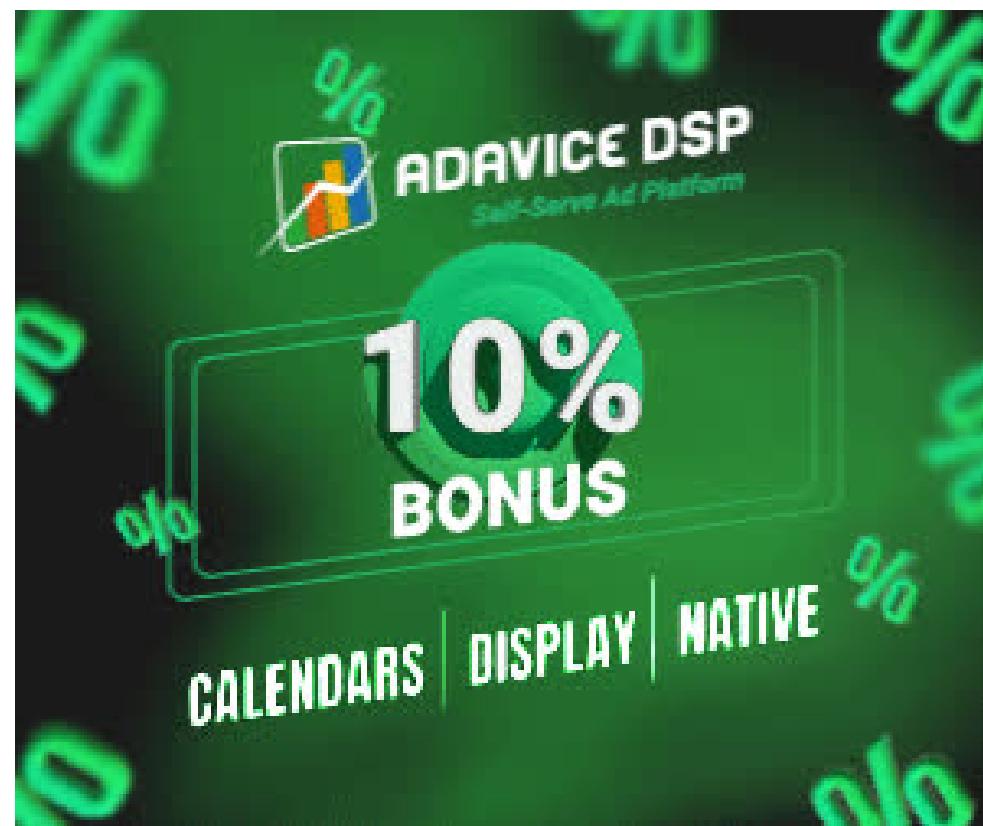

Finalization & Delivery

After approval, we prepare the final files in the required formats

Our team remains available to address any additional needs, from resizing for new platforms to creating variations for future campaigns. Ready to get started? Let's create something amazing together!

Logo design - stages

Discovery & Research

We start by understanding your brand, its goals, and target audience. This involves gathering information about your company's values, vision, and unique selling points. We also research your competitors and industry trends to ensure your logo stands out while remaining relevant to your market.

Design Execution

Based on the brief, our designers bring it to life using high-quality visuals, compelling typography, and your brand's color palette. We ensure the design aligns with your brand guidelines and resonates with your audience.

Review & Feedback

During this phase, we'll present logo concepts for your input, revising and improving the designs to ensure they align with your vision.

Finalization & Delivery

We provide you with the final logo files in multiple formats (e.g., SVG, PNG, JPG) and color variations (e.g., full color, black and white, monochrome), ensuring you have everything you need for both digital and print uses.

To ensure consistent and correct usage of the logo across all platforms, we can create a simple brand style guide. This guide will include logo usage rules (e.g., spacing, color variations), font styles, and color codes. Ready to get started? Let's create something amazing together!

Landing Page Design & Development - stages

Discovery & Research

We start by understanding your business goals, target audience, and the specific objective of the landing page. We gather information about your brand, key messaging, and any existing branding materials. We also research competitors and industry trends to ensure your landing page is both effective and unique.

Design Execution

Once we have a clear understanding of the project, we begin by creating the visual design, that aligns with your brand. Then we move into the development phase. This involves translating the design into a fully functional landing page using HTML, CSS, and JavaScript.

Review & Feedback

Once everything is tested and ready, we present the landing page to you for feedback and revisions.

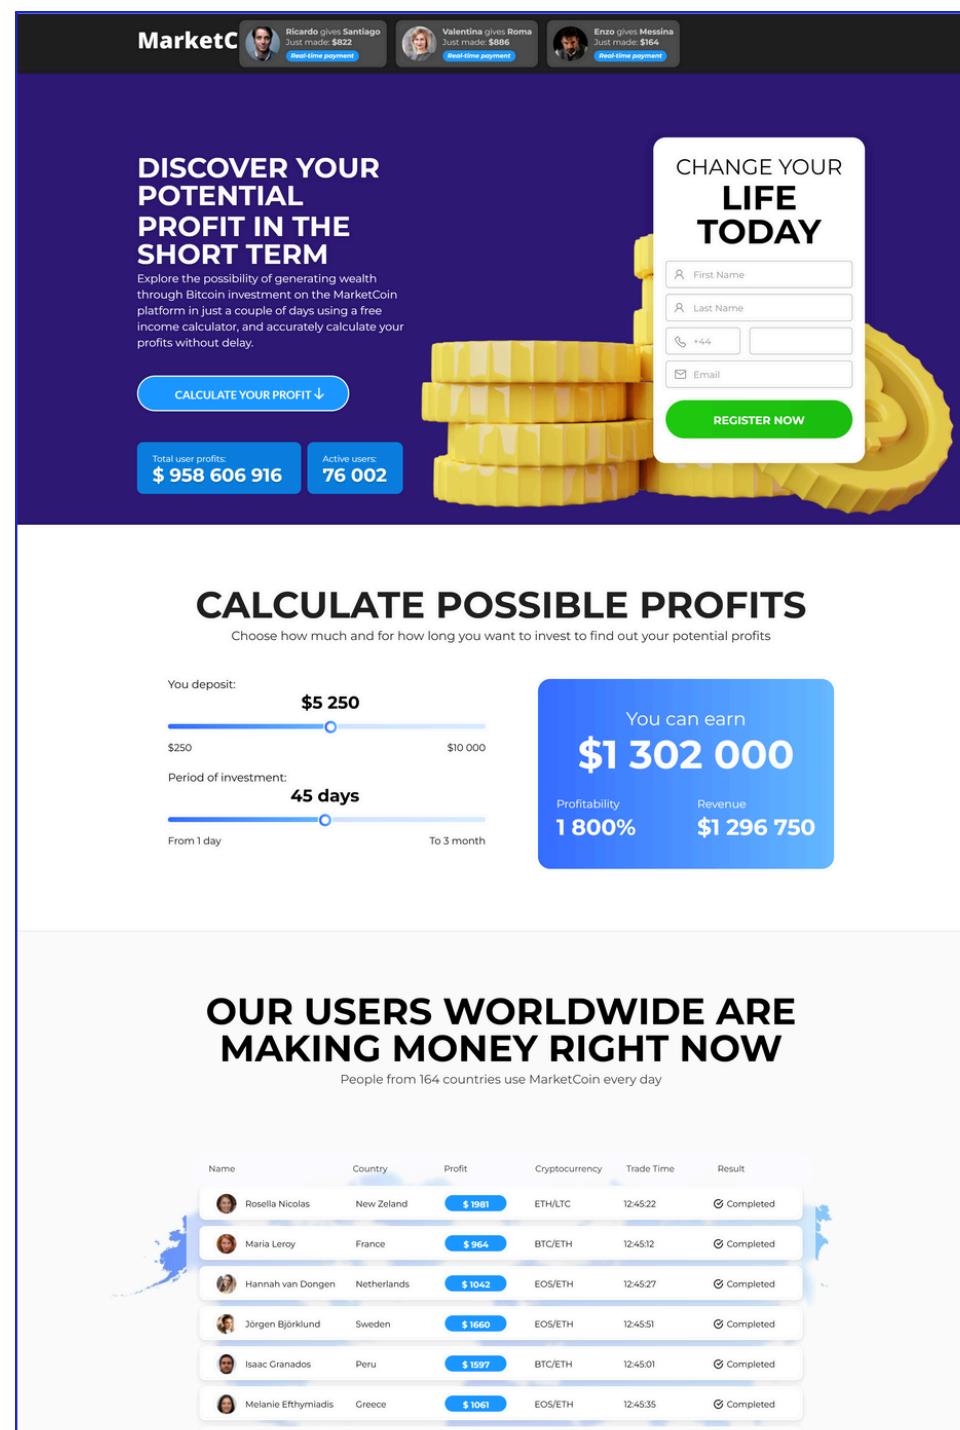

File Delivery

After the landing page is finalized, we package all the files (HTML, CSS, images, JavaScript, etc.) in a zip file and deliver it to you. Optionally, we can also upload the files to the GitHub.

We are experts in everything related to search. The term relates to everything your potential client might be searching for online. Making the connection between your potential client searches and yourselves is what we have been doing here for the past 15 years.

We have an inhouse Paid Search Marketing Team. This team of experts will design and manage your campaign, delivering the best return on investment.

Our Social Team will connect your campaign to social media platforms such as Facebook, Instagram, Twitter, LinkedIn and more. Whatever social niche you are interested in, we will draft engaging content to your business. We will optimize bids, analyze keywords and use dimensional factors to boost campaign efficiency.

Push marketing refers to our in-house databases, comprising millions of targeted users. This technique was developed a decade ago and have been refined over time. As a one stop shop, we provide advertisers with the ability to push ads via SMS, Push Notification, Social Messaging Platforms and so forth.

Adavice.com sits at the heart of marketing, brand awareness, design and relationship. Our purpose is to provide worldwide brands with that chance to reinvent their digital experience and flow.

The core of success we achieve for our client is derived from our full stop shop solution. It is our mission to create a digital solution which delivers commercial success. It is our understanding of the relationship between attracting customers and engaging them through a digital relationship channel that makes the difference.
